PO Box 168
Brodhead WI 53520-0168

Short Term Watering Policy and Permit:

The Brodhead Wastewater Facility has a deduct meter policy for residents who water lawns, gardens, etc.

For residents who do not need a deduct meter but will be using water to fill a pool not connected to the sewer system or start a new lawn, the policy is:

70% of the residents extra water usage above their normal average will be deducted from their sewer bill if the resident meets these pre-qualifications.

1. Resident shows that they have a need to water.
2. Installing a deduct meter would be unreasonable.
3. Resident proves that none of the water will enter the sewer system.
4. Resident understands that this is a onetime allowance.
5. Resident receives a permit

Permit
